

Voice of body  
By Farda Design

# BIOGRAPHY

Two young architectures, Maryam Pesian and Sara Sarkheil established a very unique conceptual fashion line, named Farda. This fashion brand has commenced its design process since 2013 with the conception of designing based on “Avant garde” and innovative style as to distinguish itself to any other brand. As its translation to Farsi\_ tomorrow\_ this brand put all of its efforts into design with an eye on future. Designers clearly seek for something pioneer in their fashion art and rely their design on new technology and industry. Utilizing uncommon materials, cuts, fancyworks and sewing works on fabric edges are the ones that have demonstrated this brand’s contrast to any other brands and its superior concepts.
